

Canadian Women's Heart Health Alliance

Knowledge Translation and Mobilization Working Group | Member Profile

Nousheen Khan, MBBS, DGO, MRCOG, MRCPI

Specialist in obstetrics and gynecology

Mississauga, ON

Member since 2022

Biography

As an international medical graduate specialized in obstetrics and gynaecology, I have more than 12 years of experience of working in different hospitals and clinical settings. I worked in a state of art tertiary hospital with heavy caseload and delivery rate of nearly 3000 patients yearly with high-risk patients. My strong assets would be being good with teamwork and having excellent patient communication skills. I am also an avid speaker and was actively involved in my previous organization with participating in medical conferences, presenting posters and being an orator for various events.

My current goal is to obtain a licence to practise in Canada. I have already given my exams and looking forward to being integrated into the system.

Being a member of the Canadian Women's Heart Health Alliance would give me the closest opportunity to be a patient advocate as well as the best chance to be a valuable team member and use my skill for women health empowerment in Canada
