Biography

Liam Brunham is an Associate Professor and Canada Research Chair in Precision Cardiovascular Disease Prevention at the University of British Columbia. He is the Physician Lead of the Healthy Heart Program Prevention clinic at St. Paul's Hospital. His research team at the UBC Centre for Heart Lung Innovation focuses on the role of genetics in metabolic and cardiovascular disease and the response to medications. He has been recognised with a Canadian Institutes of Health Research New Investigator Award, a Michael Smith Foundation for Health Research Scholar award, a Heart & Stroke Foundation National New Investigator award, and in 2017 was recognized as one of Canada's Top 40 under 40.
