Biography

Dr Jasmine Grewal is a clinical associate professor at the University of British Columbia and a member of the Divisions of Cardiology at St Paul's Hospital. With fellowship training in Adult Congenital Heart Disease/Pregnancy and Heart Disease (Toronto General Hospital) and Echocardiography (Mayo Clinic, Rochester MN), Dr. Grewal is actively involved in clinical and research activities in these fields. She is currently involved as a primary and co-investigator in numerous single centre and multi-centre research studies in the areas of congenital heart disease and pregnancy and heart disease. She is a co-chair of the Canadian Adult Congenital Heart Network Investigators Group, is a member the executive of the Canadian Adult Congenital Heart Network and of the Alliance for Adult Research in Congenital Cardiology. Dr Grewal focuses her clinical time in the Pacific Adult Congenital Heart Disease and is the Director of the Cardiac Obstetrics Program at St.Paul's Hospital. Additionally, Dr. Grewal is an Echocardiographer and also works in the cardiac intensive care unit at St Paul's Hospital.
