

**Husam Abdel-Qadir, MD, PhD, FRCPC, ABIM**  
Women's College Hospital and University Health Network  
Assistant Professor, Department of Medicine  
University of Toronto  
Toronto, ON

**Biography**

Husam Abdel-Qadir is an assistant Professor of Medicine at the University of Toronto and at the Institute of Health Policy, Management and Evaluation. He is also a scientist at Women's College Research Institute, the Ted Rogers Centre for Heart Research, and the Institute for Clinical Evaluative Sciences as well as a Cardiologist at Women's College Hospital and the University Health Network.

Husam Abdel-Qadir graduated from medical school at the University of Toronto in Canada with the Silver Medal in 2007. He has since developed an interest in cardiovascular disease among patients with cancer and other non-cardiovascular co-morbidities. He completed a PhD in Clinical Epidemiology and Health Care Research at the University of Toronto's Institute for Health Policy, Management, and Evaluation. At present, the primary focus of his research program is the long-term cardiovascular health of cancer survivors, which is being supported by a Chair in Heart and Brain Health from the Heart and Stroke Foundation and the Canadian Institutes of Health Research. In recognition of his research productivity, he was awarded the 2017 European Society of Cardiology Young Investigator Award in the Clinical Sciences Category, the inaugural Young Investigator Competition at the 2017 Global Cardio-Oncology Summit and the 2018 Polanyi prize in Medicine/ Physiology.
